

My name is Maryann Jones. My 15 year old daughter has been receiving numerous calls from a group called Goodlender. They are offering to restore her credit. We have repeatedly asked them to stop calling. We have informed them of her age, and several times have been asked questions in order to take her off their "call list". It seems they just pass our phone number on to someone else in the group. Today, for example, she received 4 calls from them, one while I was on the phone to them. All the phone calls come up on caller ID with a different number, but the same company name and area code. I don't know if we have any recourse, but I would greatly appreciate any help you could give us. Thank you Maryann Jones
